ESTABLISHED

TERMS OF SALE

- 1) A 10% buyers charge will be added to the hammer price of each lot purchased.
- 2) All bids are per lot as numbered in this catalog.
- 3) We reserve the right to withdraw any lot prior to sale.
- 4) All successful bidders shall be billed for postage, handling and insurance.
- 5) R.M. SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
- 6) A SMYTHE auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
- 8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
- 10) All bids must be in whole dollar amounts; this includes percentage increases.
- 11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
- 12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
- 13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
- 14) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
- 15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
- 16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 17) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
- 18) In the event of dispute, the auctioneer's decision is final.

GUARANTEES AND RIGHTS OF RECOVERY

- 19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. SMYTHE reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
- 21) All material in this catalog is guaranteed to be genuine unless otherwise described.
- 22) No lots may be returned by floor bidders except for non-authenticity.
- 23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 25) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
- 26) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 27) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 28) All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by SMYTHE for auction sales, catalogs or other monies due to SMYTHE.
- 29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

Estimates & Reserves

We have endeavored to include estimates on each lot. These estimates are our conservative opinion as to what we feel a lot may bring. Prices realized may be higher or lower depending on wholesale and retail market conditions at the time.

While the bulk of the items offered in this sale are unreserved, items indicated by a “ ★ ” in front of the estimate are reserved at the lower price indicated. For example, an item with an estimate ★(\$250) is reserved by the consignor at \$250.00.

Where non-published reserves exist, the auctioneer may execute bids from consignors. R. M. Smythe reserves the right to include our own material in this auction as well as to bid on any item in this sale. R. M. Smythe & Co. has advanced money (where requested) to consignors and in addition has agreed to advance money to purchasers who have established credit in advance.

CONDITION TERMINOLOGY FOR PAPER

- Gem Unc.** (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
- Choice Unc.** (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the “Gem” class.
- Unc.** (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
- Choice AU** (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
- AU** (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
- EF** (Extremely Fine) - An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
- VF** (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
- F** (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
- VG** (Very Good) - A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.
- Good** - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
- Fair** - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
- Poor** - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
- Abt** (before a grade) - A shade below the grade it precedes.
- Plus or +** (following a grade) - A shade better than the grade.
- VF-EF** (hyphen between grades) - The grade is about halfway between the two grades shown.
- VF/Good** (slash between two grades) - Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

CONDITION TERMINOLOGY FOR STOCK CERTIFICATES

Unlike coins and paper money, the grading of stocks and bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

- Fair** - A certificate with extreme handling, fold splitting, stains, small pieces out or tears.
- Fine** - Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.
- Very Fine (VF)** - The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.
- Very Fine+ (VF+)** - Obviously used or worn, but brighter or cleaner than the average example.
- Extremely Fine (EF)** - A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.
- Extremely Fine+ (EF+)** - As made, or nearly so.

All certificates are **Very Fine** unless otherwise mentioned.

The listed counterfeits are dated in the 1820's. This plate appears much high quality than we have seen and is dated earlier. The river god theme and public health is interesting in that water sanitation was very important for these early urban dwellers. Bank of The United States

Important and Rare Charleston Branch Note

- 1211 Bank of the United States. \$50. (G-208). VG, endorsed on the back. a rough top edge, probably torn from its sheet. Excessively Rare. (Photo) (\$400-Up)

Eric P. Newman once declared that outside of proofs, he very much doubted that any genuine First Bank of the United States notes existed. With the exception of the proofs and this note, we could pretty much say the same. This is a department note payable at Charleston, S.C. It is printed on red silk fiber paper. It is endorsed on the back by Adam Gilchrist, the branch president at Charleston. We are confident that this note is a very late era genuine specimen of this issue. We would not be surprised by a run away low four figure price.

- 1212 Bank of the United States. \$10. (G-522 or C-522). Nashville Branch. Fine, center ink corrosion but way above average for the type. (\$125-Up)

As usual, tough to tell exactly if genuine or not. If counterfeit, (and it is most likely so, there being no this is one of the finest plates we have ever encountered.

"The Men Who Tried To Steal America"

- 1213 Bank of U.S. Checks. [2] (\$100-Up)
1) PA. Philadelphia. First Bank. 1793 check, payable to the bank for \$320. Signed by Isaac Milnor. Unc, a couple of petty body holes. 2) PA. Philadelphia. Second Bank. Check payable to George Williams for \$1701.50. Endorsed by Williams on the back. Williams, as a government director on the parent board in Philadelphia, was a co-conspirator with President Buchanan and Cashier James McCulloh of the Baltimore branch in their effort to take over the bank. Borrowing under false pretenses nearly \$9 million of the bank's funds, (equal to the US budget of the era) to buy ever more of the bank's shares, they aimed to get control of the Bank and then elect a board that would ratify all of their unlawful proceedings. They nearly succeeded and have sometimes been referred to as the men who tried to steal America.

1837 Era Satirical Notes

- 1214 Philadelphia. Capital Currency, Promise to Pay Nicholas Biddle. 10 Cents. (H-305-699). About Fine, light overall hints of foxing. A Rare Satirical note of which we have seen or handled less than half-a-dozen; this being the choicest. (Photo) (\$300-Up)

This combination note and advertising piece was put out by J. Saul Abrams a part time medical type who cured toothaches and dealt with corns. The symbolism is as follows. Abrams had evidently annoyed the Quakers whose religious beliefs he had attacked in street preaching. Hence the demands that he be suppressed, while others cheer him on. The mention of Biddle attacks the head of the Bank of the United States for the economic crash and the use of private due bills. He also promises to pay on demand, while everyone else has suspended specie payments.

With the exception of the Julian Leidman collection (Sold by Bowers & Merena several years back), these 1837 satirical notes are rarely offered for sale, especially this choice.

- 1215 Humbug Glory Bank. 6¢. 1837. Imprint trimmed off. Good, torn in half and rejoined, small edge chips off, and lower left corner scotch tape staining. Rare and Historical. (Photo) (\$450-Up)

This note was issued during the depression of 1837-46 and attacks the Jacksonian Democrats, whose policies of "hard money" and destruction of the Second Bank of the United States were blamed for the crisis.

The coins at the left with Jackson's head attack his alleged monarchist pretensions and the metallic currency promised, but not provided. "Martin V Sc" attacks Vice President Van Buren. The donkey, the Democratic party symbol, is satirized as "Roman Firmness" (asinine stubbornness); "Honest Amos" refers to Amos Kendall, one of Jackson's "Kitchen Cabinet." The inscriptions, top and bottom, refer again to the suspension of specie payments, the host of worthless paper scrip in circulation and broken political promises regarding the currency; as does the phrase "Mint Drops" (gold coins). The use of the word "Glory" refers to a ruined economy gone to glory. The other insignia refer to Jackson.

We have handled less than half-a-dozen of these (this example twice). Rare and Historical.

- 2166 **Teapot Dome Oil (WY)** 1907. 200 shs, br. Hillside oil site, train. VF, two tiny edge splits on top. (\$100-Up)
The Teapot Dome scandal was one of the worst in American political history. The United States Navy had maintained a huge reserve of oil in Wyoming. In 1921, President Harding turned control of these reserves over to Albert B. Fall, Secretary of the Interior. Senate investigators learned that Fall had secretly leased the Teapot Dome reserves to Harry F. Sinclair's Mammoth Oil Company and Edward L. Doheny's Pan-American Petroleum and Transport in return for gifts and loans totalling over \$400,000.
The relationship between the scandal and this certificate remains unclear, but the name association is certainly a great one.
The certificate is not dated clearly. The "19" is printed, while only a "7" has been written in. The style of the certificate suggests the 1920s.

Joseph Francis "Buster" Keaton (1895-1966) was a celebrated American actor, director, producer and screenwriter. He was nicknamed Buster by Harry Houdini, the legendary magician, who admired the way Keaton at the age of six months survived unharmed from a fall down a flight of stairs at a boarding house for show people. At the age of three Buster was already performing with family acrobatic comedy acts. By the time he was six, the family had switched from medicine shows to vaudeville. Keaton was so skilled at his craft as an acrobat that many believed he was actually a midget masquerading as a child. At 21, Buster, who had a well-established name in vaudeville, was offered a starring role for a hefty salary in a Schubert revue at New York's Winter Garden, but instead he chose to enter films. His first movie was *The Butcher Boy*, where he was cast in a supporting role. He was featured in a series of comedy shorts starring and directed by Roscoe "Fatty" Arbuckle.

In 1919, Joseph Schenck, who had produced most of the Arbuckle-Keaton films, bought the former Chaplin Studios and renamed it the Buster Keaton Studio. This outfit produced several box office hits including *The Saphead*, *One Week*, etc. In 1921, Buster Keaton Productions came into being and produced several more comedy gems (*The Playhouse*, *The Boat*, *The Navigator*, etc.)

Keaton's screen personality, manner, and style differ from his great rival in the silent era, Charlie Chaplin, the eternal "little tramp". Keaton typically portrayed a dignified, remarkably restrained young man whose handsome stone face betrayed frustration or bewilderment only through the slightest of muscular contractions. He was not possessed with Chaplin's need to express poetry on the screen; rather, his comedy is rooted in the traditions of the American medicine show and vaudeville and his strength lies in his ability to sustain a gag. Keaton was considered by many a comic genius not only as a performer but also as a highly gifted director, superior to Chaplin. In 1952 the two legends appeared together for the first and only time in the movie *Limelight*.

A screen biography *The Buster Keaton Story* was released in 1957. When Keaton made a personal appearance at the Venice Film Festival in 1965, he was accorded the loudest and longest ovation ever accorded an artist.

Gatling Signed Certificate

- 2236 **Gatling, R. J. Gatling Ordnance** (WV) 1896. 50 shs, br. Woman and shield seated at center. Signed by **R. J. Gatling** boldly, as President. ABN. VF. (\$1000-Up)

One of the great revolutions in the history of firearms making was invented by **Richard Jordan Gatling** (1818-1913). Although his rapid fire machine gun could fire 350 rounds per minute in 1862, its official adoption by Federal authorities came too late in the Civil War to be a major factor in that conflict. Today, the rapid fire machine gun is an important weapon in every nation's arsenal.

Born in Hertford County, North Carolina in 1818, Gatling was not initially an inventor of firearms but of agricultural and steamboat machinery. Ironically, **John Ericsson** (of "Ironclads" fame") was granted a patent for a practical screw propeller in 1839 shortly before Gatling perfected his own. After moving to St. Louis, his patents for several agricultural machines helped to revolutionize the agricultural system in the United States. Gatling died in 1903 in New York City. His weapon is probably most remembered as the co-star (along with **John Wayne**) in the film *The War Wagon*.

2237 Hearst, Geo: San Pedro Mining (AZ Terr) 1878. Tombstone District, Pima County. 500 shs. Gold title and frame. Signed by George Hearst as president. VF. (\$1000-Up)

George Hearst, father of William Randolph Hearst, was one of California's most important historical figures. Born in Missouri, Hearst spent most of his first 37 years farming, but he showed a great deal of interest in local mining. This prepared him for later opportunities.

In 1850 he moved to California where he became involved in quartz mining and later, placer mining. Hearst had little early success. In 1859 he headed for Washoe County, Nevada, \$40 in debt. He was stopped by a constable who demanded the \$40 dollars. Fortunately for Hearst, two friends happened along and bailed him out of trouble. The trio rode on to Virginia City where they bought a half-interest in a nearby claim and struck it rich. Despite this success, by 1866 he became embroiled in a lawsuit against the Raymond & Ely Mine in Nevada and lost \$400,000. He was almost broke when two ex-Kentuckians, Lloyd Tevis and James Ben Ali Haggin, recognized his value and formed a partnership. Tevis and Haggin had made a fortune as land speculators, mining promoters and money lenders, but they had little mining savvy. They did know talent when they saw it. Hearst proved to be one of the country's leading practical geologists. His holdings were to include three of North America's richest mines, the Ophir in Nevada, the Homestake in South Dakota, and the Anaconda in Montana.

Hearst was practical, unpretentious and generous, and he was a popular figure among the rough-and-ready Californians. His interest in politics resulted in a term in the California Assembly in 1865-66.

In 1878, when this San Pedro Mining Company certificate was issued, George Hearst was at the height of his mining career. His expertise was in great demand and he received fees as high as \$50,000 for examining mines for others. 1878 was the year that Hearst built a wharf on San Simeon and constructed that now-famous spacious ranch house at the top of the hill. He would soon acquire the *San Francisco Daily Examiner* as part of an effort to receive the nomination for U.S. Senator from California. Hearst won the nomination but was defeated by Leland Stanford in 1885. A year later Hearst was appointed Senator to fill a vacancy. He would eventually be elected to a full term.

When he died in 1891, his son, William Randolph Hearst, took over the management of the *San Francisco Examiner*.

- 2813 **Tucker (DE) 1947. 5000 shs, bl. Class B Common Stock.** Stylized "TUCKER" logo on an elaborate blue underprint. Signed by **Preston Tucker and Preston Tucker, Jr.** as Voting Trustees. ABN. EF. (\$2000-Up)
In 1948, Preston Tucker captured the imagination of America's car buyers with the promise of a radical new design that challenged the ultra-conservative products of America's established automobile manufacturing industry. The new Tucker featured a rear-mounted horizontally opposed six-cylinder 166 horsepower air cooled aluminum engine. The grill had a third "Cyclops" headlight that pointed in the direction the wheels were steered. The styling was long, low and luxurious, and there was plenty of room inside because the transmission hump was eliminated. Automobile manufacturers of the 1940's were heavily invested in plants and tools designed to produce a much more conservative product. and Tucker's challenge may have been perceived as a serious threat that was closely monitored in the boardrooms of Detroit. The movie "Tucker: A Man and His Dream" certainly dwelled on that theme. The reality of the situation may have been somewhat less romantic. Only 51 Tuckers were produced, and today these extraordinary automobiles are avidly collected. We know of only 9 of these certificates issued, five to Robert Pierce and four to Lee S. Treese. Not to be confused with the relatively common Tucker Class "A" Common Stock that has the engraved signature of Tucker, the Class "B" Common Stock, is actually signed by Tucker.
